iPraktikum

Winter Semester 2022/23 - Info Meeting

Matthias Linhuber

Philipp Zagar

Christoph Weinhuber

Prof. Stephan Krusche

Why us?

Real clients

Real problems

Real data

Real teamwork

Real projects

Real deadlines

Real delivery

This is a challenging,

but rewarding

course!

Our Philosophy

"Tell me and I will forget.

Show me and I will remember.

Involve me and I will understand.

Step back and I will act."

(Chinese Proverb)

In this course, you will...

... develop a system in a mobile context for the iOS platform
This can include application servers, sensors, wearables, micro-controllers, etc.

... gain experience in an agile software project
Plan, design, implement, test, deliver using JIRA, Confluence, Bitbucket, Bamboo, Slack

... regularly deliver your apps to the customer and users
Understand, prioritize, and implement feedback from customers and end users

... improve your soft skills and learn to talk about your work Hold presentations, tell a story about your project in an engaging live demo

Our expectations

Knowledge in OO programming languages and paradigms Swift, Objective-C, Java, C++, C#, ...

Basic skills in Modeling and Software Architecture You understand e.g. UML Class and Component Diagrams

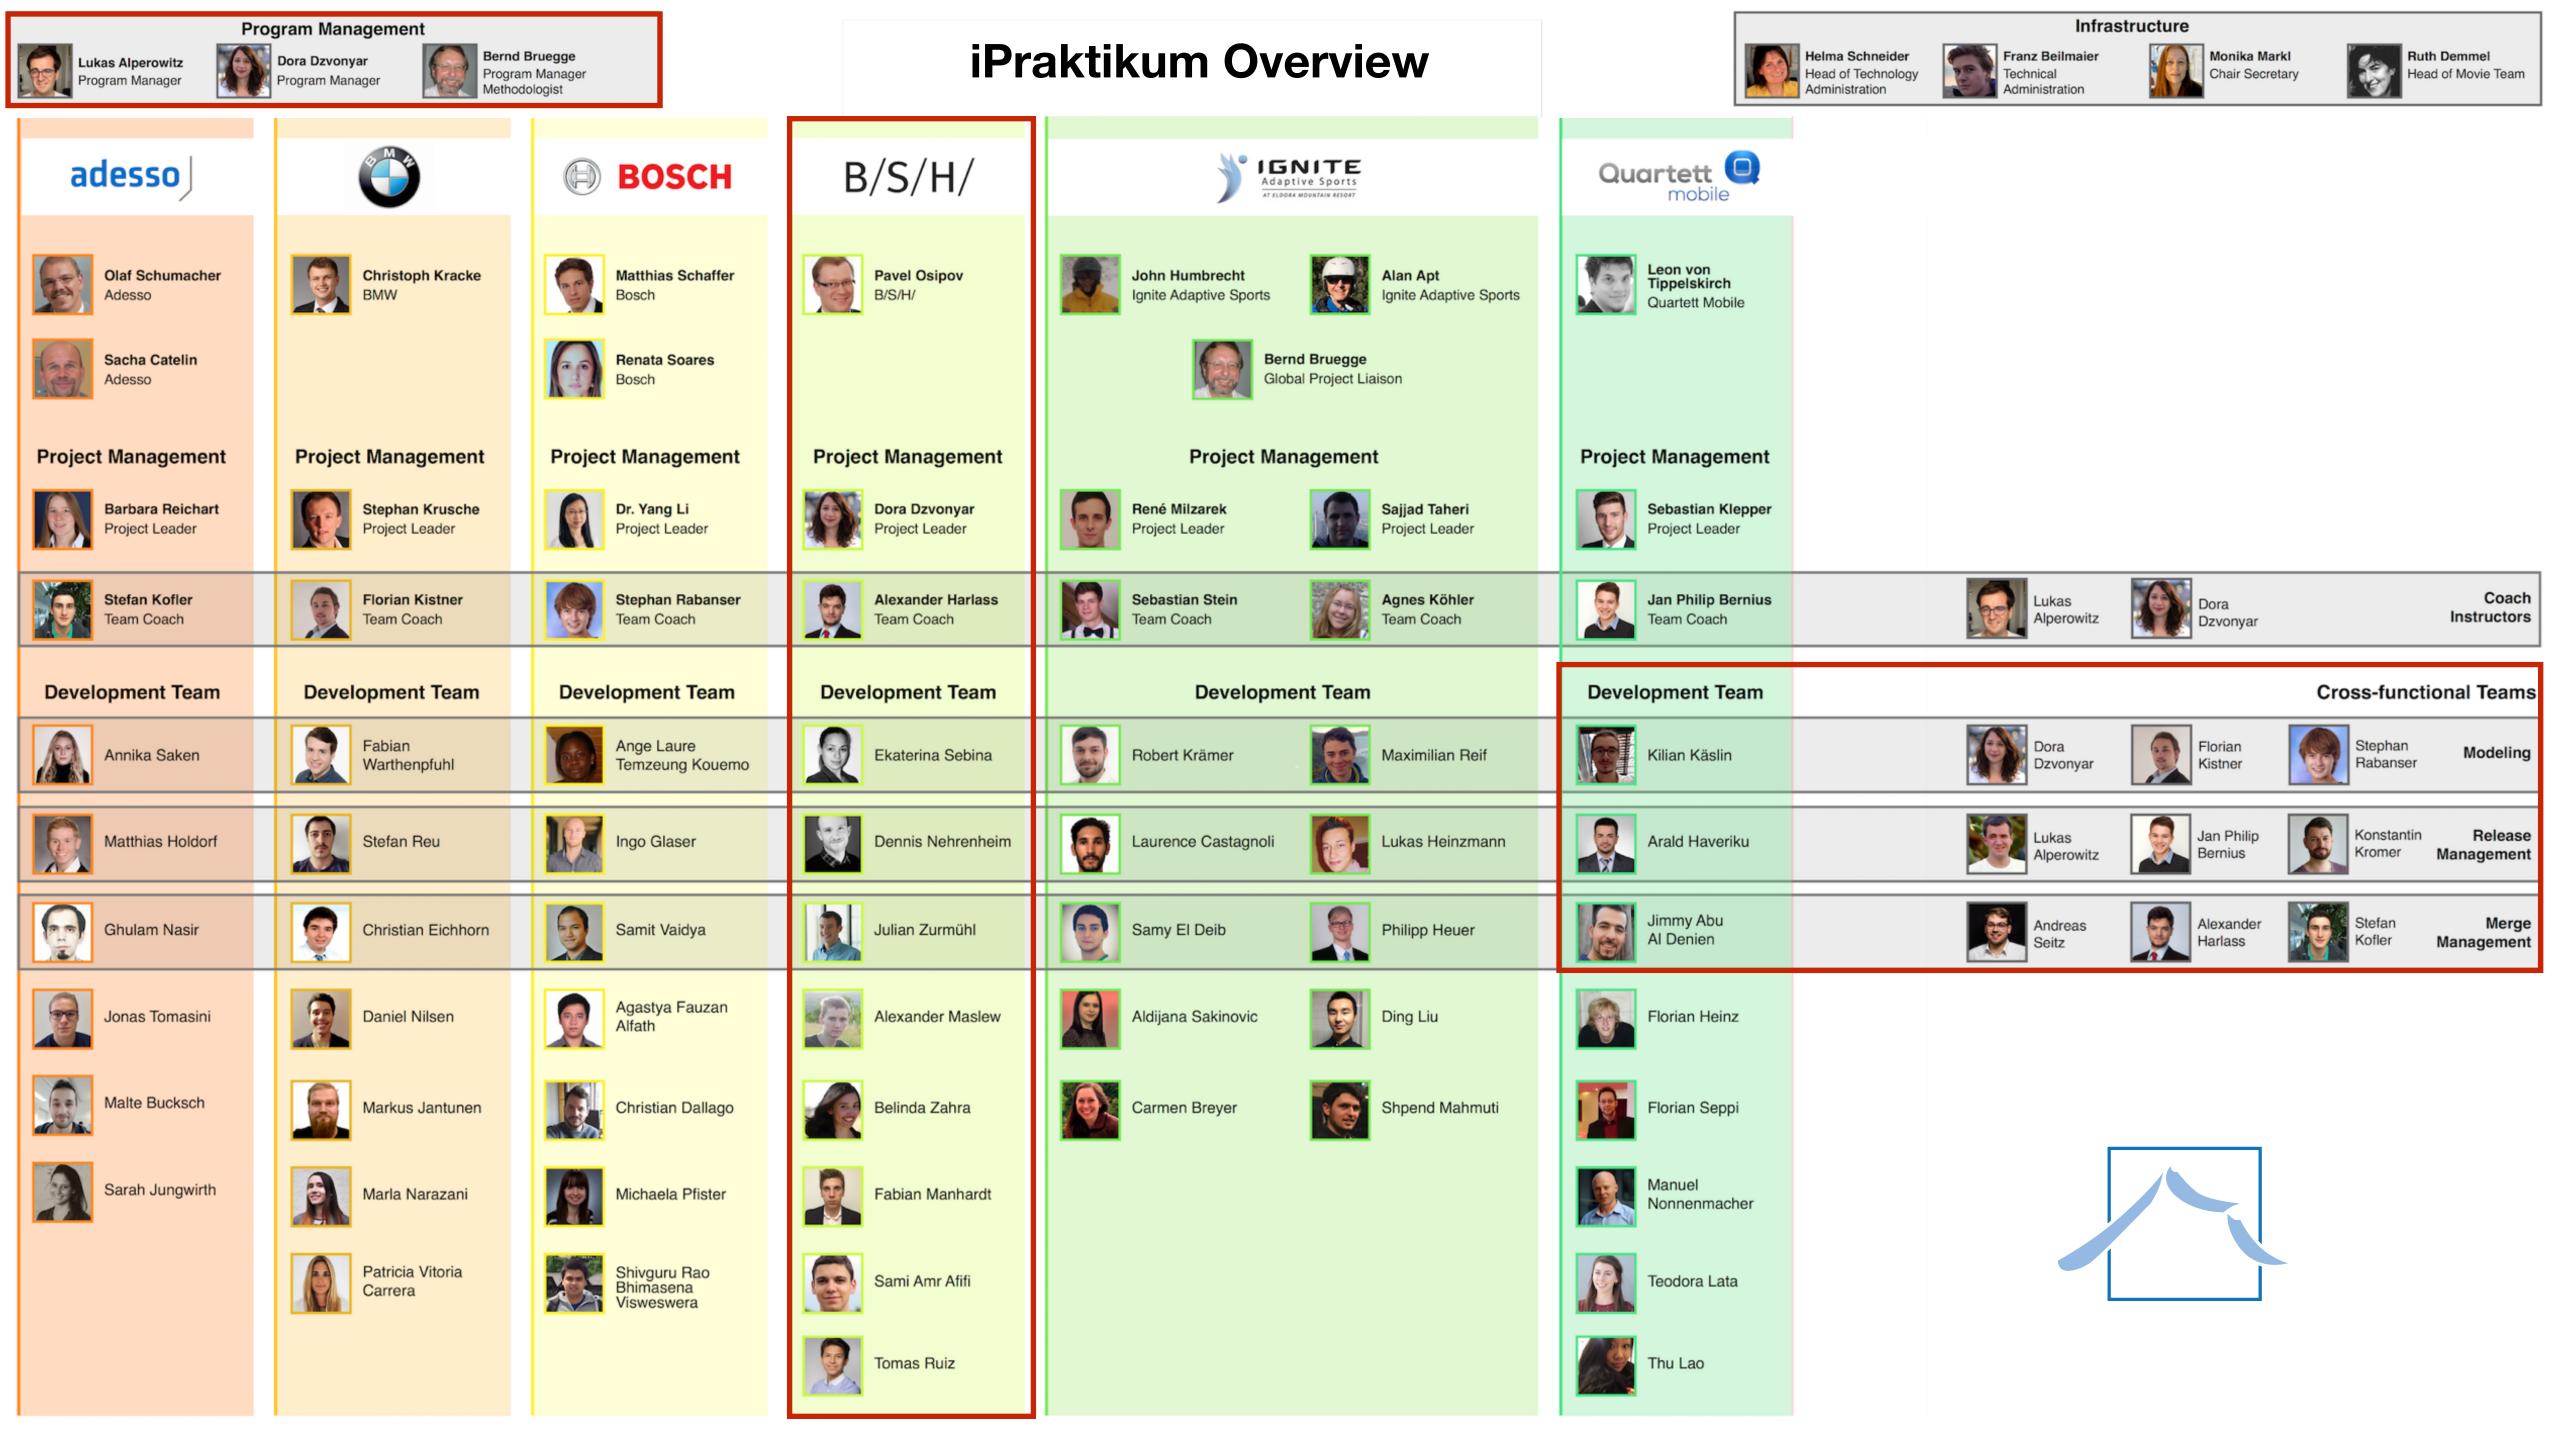

Willingness to work in a team

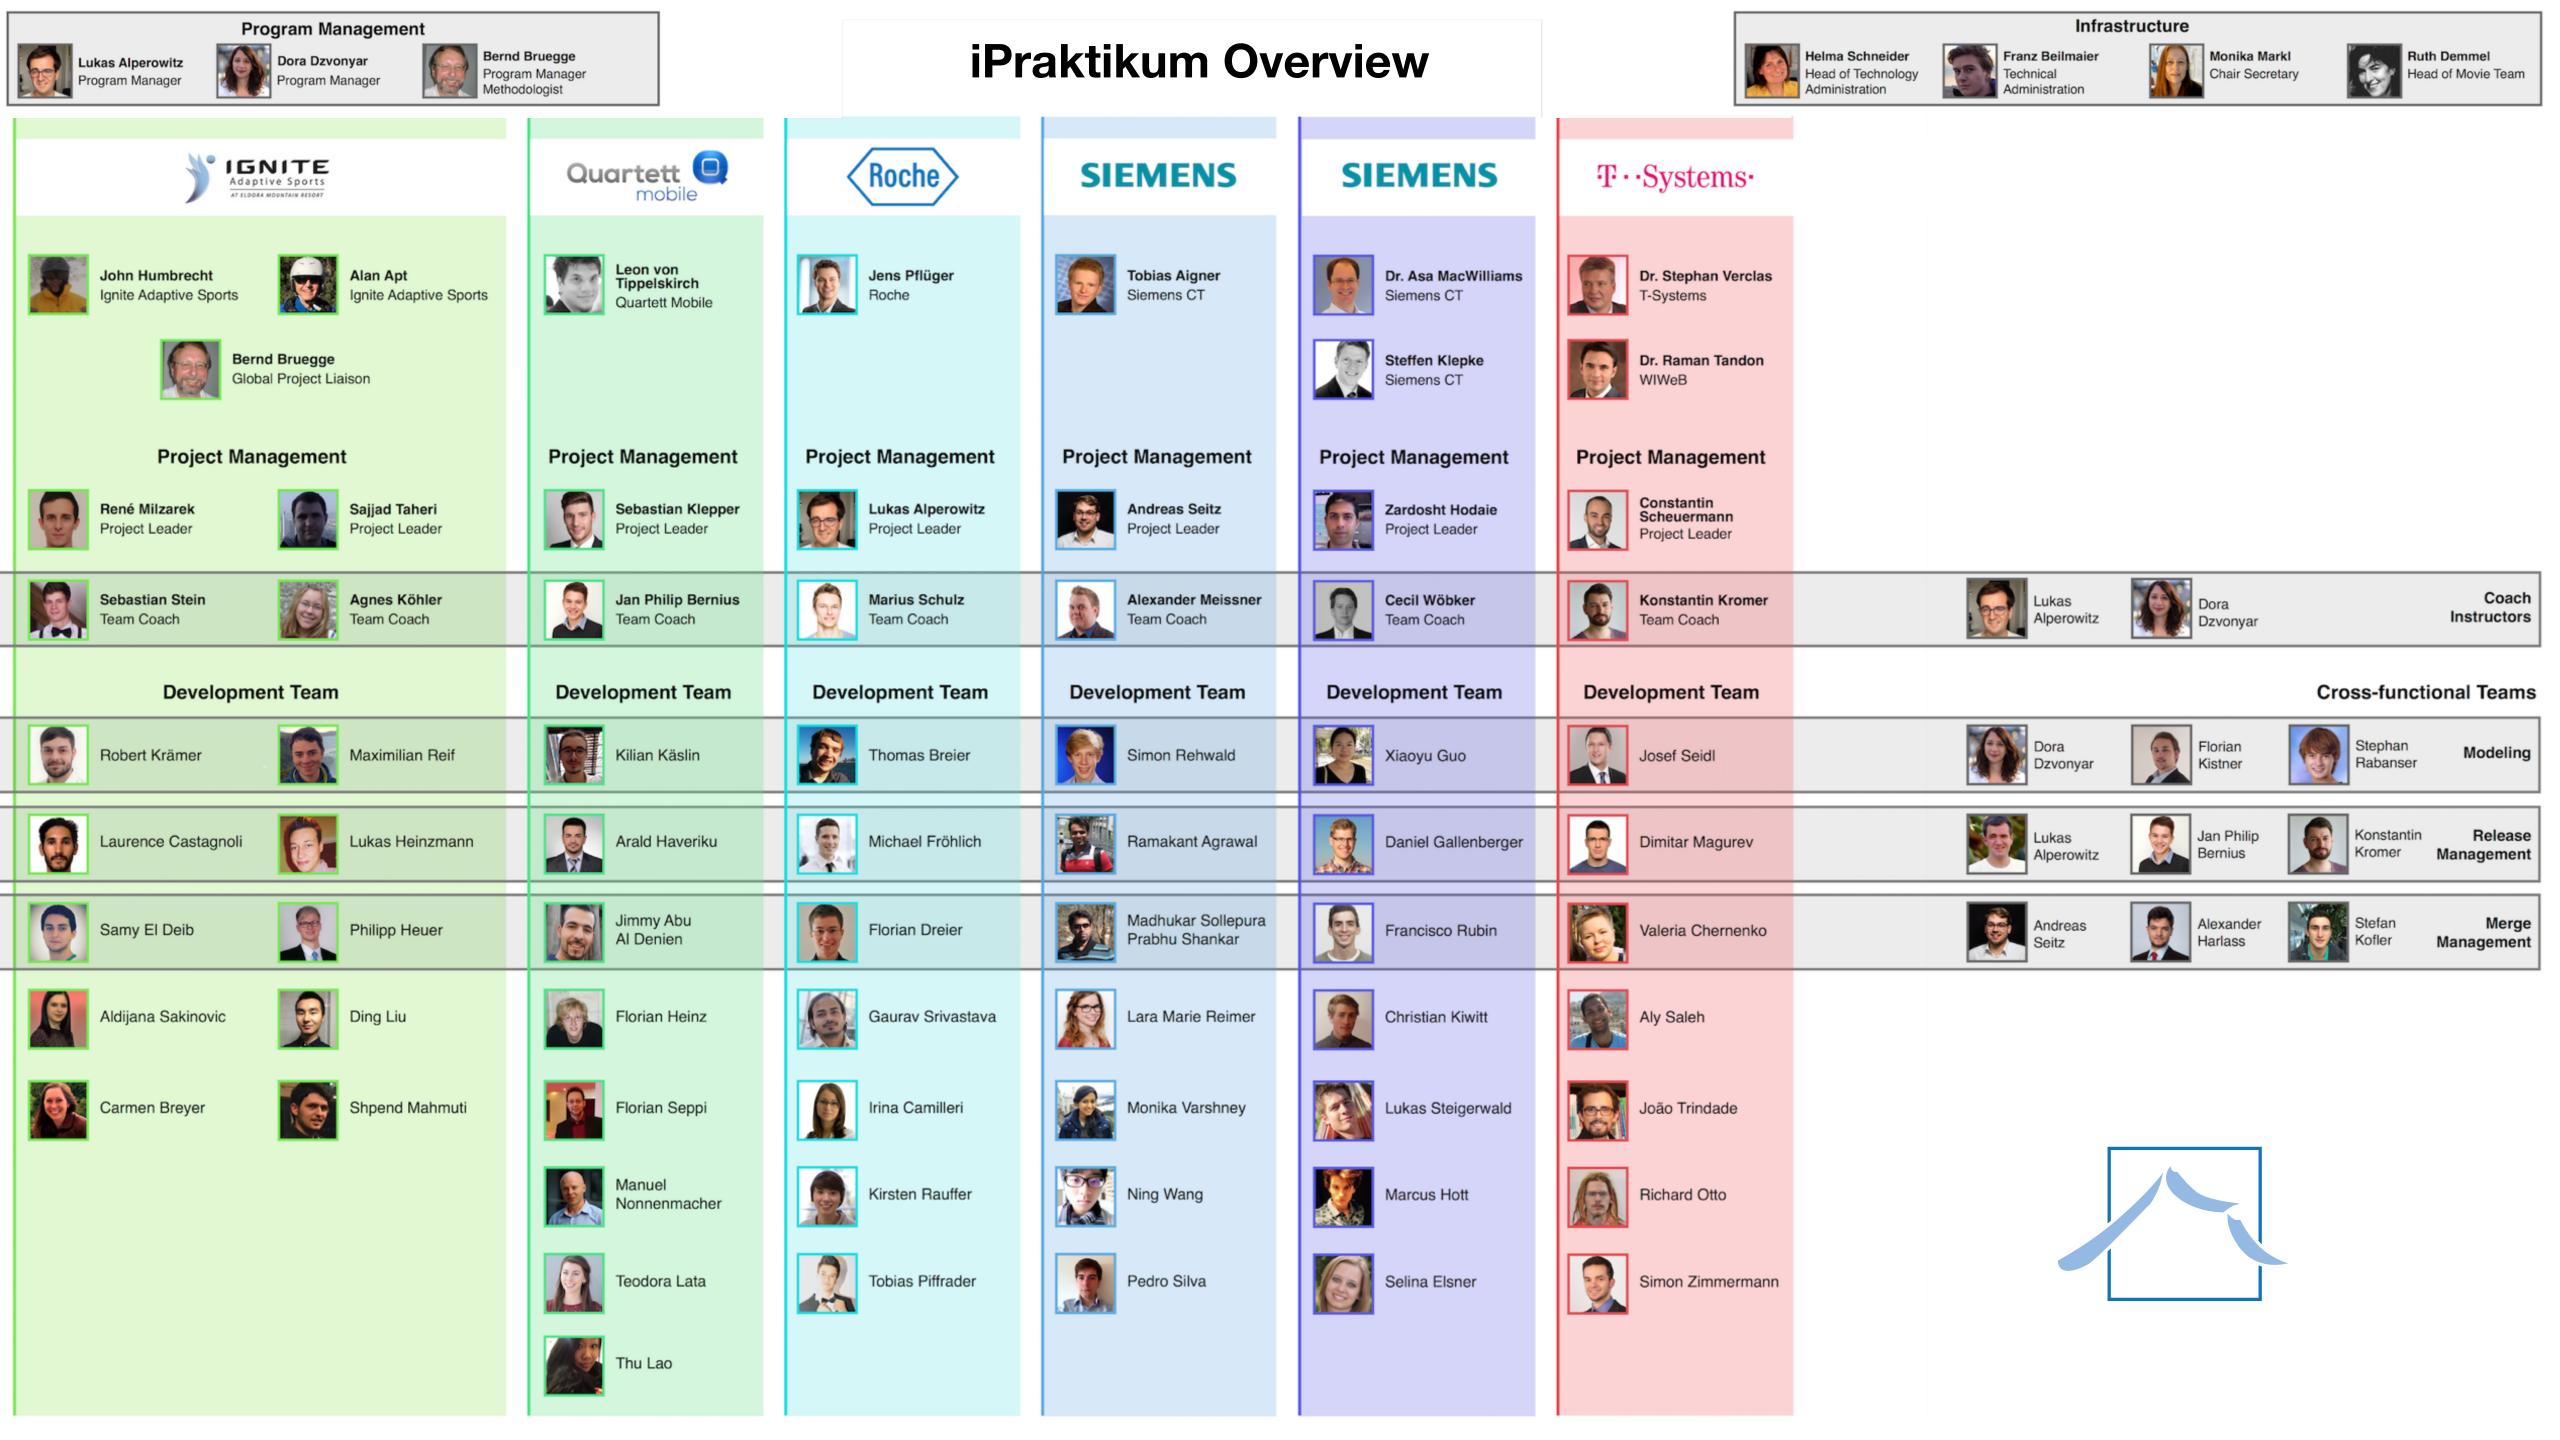

Real team work as well as communication with the customer.

High motivation and flexibility

Challenging tasks require attention and commitment beyond a normal lecture. This course is worth 10 ECTS, plan your time accordingly.

Impressions

You have to either learn Swift or prove your iOS knowledge

Intro Course: Oct 10 - Oct 14 (Homework due Oct 19)

Intensive <u>in-person</u> course before the beginning of the iPraktikum Introduction to Xcode, Swift, SwiftUI, Server-Side Swift, git...

In-person attendance is mandatory. No excuses.

Please make sure you can attend sessions full time (exception: repeat exams)

For iOS-experienced students: Creative challenge until Oct 3

As some students already have experience in Swift / iOS, we offer a possibility to prove your knowledge by submitting a Creative challenge (an iOS app). If we deem your submission good enough, one is able to skip the otherwise mandatory Intro Course.

However, mark that this <u>challenge is hard</u>. We strongly encourage you to attend the in-person Intro Course!

Schedule

Kickoff: October 20, 4:30 pm @ Interim HS1 All customers present their problem statements

Design Review: December 15, 4:30pm @ Interim HS1 Intermediate presentation of all projects with live demos and a buffet

Client Acceptance Test: February 09, 4:30pm @ Interim HS1 Final presentations of all projects with live demos and a buffet

Swift Bootcamp Schedule

(Preliminary)

October 2022

Mon 10	Tue 11	Wed 12	Thu 13	Fri 14	Sat 15	Sun 16
